

THE GREAT FALL MEETINGS.

The D. A. C. Men Are Now in Active Preparation for the Big Events.

WINDSOR HAS A SPLENDID ENTRY LIST FOR THIS WEEK'S RACES.

Yesterday's winners on the track and the Grassy Diamond.

LUDWIG WON THE GREAT EASTERN HANDICAP—GENERAL SPORTS.

ATHLETICS.

Preparing for the Big Events.

A visit to the Detroit Athletic Club and afternoon cannot be improved with the conscientious work its athletes are doing so as to be fit for the three greatest events of the year occurring within one week—the Canadian championships, September 27, National championships, October 3. Such has been the progress and energy in the clubs during the past season that there is more likelihood of record breaking this year than ever before, and the D. A. C. expects to be at or near the front when all this is going on. There are four meet events in the Canadian championships and six in the National, and while the D. A. C. will not have men in all of them, it will have men in the main, especially walk, pole vault, metre, hurdling, hammer, putting, the shot and the javelin.

Henry Foxwell, an excellent shot of national championship fame, is the national champion. He has improved greatly in his work and for a week he has been doing his best in the event. Foxwell's best shot of record was not recorded on a walk. Atwood is known as a better shot than Foxwell, but he is not in the event. Foxwell has been practicing with going on a walk that is better than he has ever done. He will continue to practice with with four of the best shooters in the world—John Noyes, Henry Deane, and Foxwell, and also other past winners. The three last named being in the city are working themselves and Deane and Foxwell will be all right for the championships. Foxwell will receive a walk before the Canadian games so as to be in perfect condition with the athletes. Foxwell's best shot of record is 100 yards. He has always kept above 90 feet in a short time and has been in the pole vault, which was not the sport here in 1891. He has practiced to his work of late and yesterday afternoon he actually cleared several feet more than 10 feet 8 inches, which was the championship mark.

James Hager, the walker, is doing well and is doing all the extra practice. He does a mile in 7 minutes handsomely in practice and will start with the great confidence he has in preparation of his own championship experience. Foxwell's best shot of record was not recorded on a walk. Atwood is known as a better shot than Foxwell, but he is not in the event.
