

## IN CROSS COUNTRY RUNS.

High School Athletes May Disport Themselves This Spring.

The caps and sweaters for the High school foot ball players have been ordered and soon the gridiron heroes will be displaying themselves in black sweaters bearing the C. R. monogram in yellow on a circular block of white. This differs from the last year's design, in which the monogram alone appeared upon a blue sweater. The monograms will be five inches high, slightly larger than last year. The monograms on the caps will also be slightly different, containing the letters C. R. F. B. T.

It is probable that another feature will be added to High school athletics this year. Manager Clay is considering the plan of having a cross country run in which teams from each of the three fraternities and the Independents will be invited to enter. The teams would consist of four or five men each and the victory would be awarded to the team all of whose members first finished. This event is a regular feature in Eastern athletics and would be valuable as preliminary training for the track athletes.
