

OUTDOOR WORK BEGUN BY D. U. S. TRACK TEAM

Most of the schools have started training for the big outdoor track meet to be held early in June, especially D. U. S., which is more than anxious to down the Central team again as decisively as in the indoor meet, held at the Light Guard this winter.

The D. U. S. squad, numbering about twenty-five, had its first outdoor work yesterday on the school grounds. Dr. McComber is almost recovered from his illness and will be out with the boys about an hour every day. For the remainder of the week they will do nothing but light work. Next week Director McComber intends to make them buckle down to work in earnest. The field is in fine shape, and there ought to be no excuse for the school not having a crack team with such athletes as Pinky Patterson, high jumper and hurdler; Joe Malcomson, sprinter and hurdler; Les Zittle, quarter and half-miler, and Vaughn and Arthur.

Central and Eastern teams are both spending a little time in long runs to get the soreness out and to get used to clefts and sod. Nearly every day about ten Eastern high boys follow Wilson in a cross-country of about five miles, while the Central squad content themselves with hitting it up around the school building. Wilson intends to win the distance runs and all the other events possible with his small bunch who, though handicapped, are determined.

Central is in with a vim and the boys are all more than ever determined that they can defeat the university lads, who gave them the bad trouncing in the indoor meet. They have two good instructors in Eddie Ryan and Jack Collins, and they will give the Elmwood avenue boys a harder nut to crack in the outdoor meet. One handicap that will be overcome is that Earl Smith, the crack hurdler, broad and high jumper, will be up in his studies by the time of the meet, which will add greatly to Central's chances.
