

TRACK TEAM TO BE ORGANIZED

HOLDING OF MEET AT BOIS
BLANC AROUSES ENTHUSIASM
IN THIS CITY

"The decision of the Michigan Interscholastic Athletic association to hold its annual track and field meet at Bois Blanc instead of having the big meets at M. A. C. and Ann Arbor has made it probable that Port Huron will take part in track athletics this year," was the statement of Athletic Manager Davis of the high school teams yesterday.

Heretofore the holding of meets in the college cities made the entrance of a large number of contestants possible and permitting the smaller schools to capture the first and second places with perhaps a single star. The Detroit schools felt "peeved" at this fact and it was at their instance that the meet was order held at Bois Blanc, June 6.

Port Huron track enthusiasts believe that the location of the meet at that place may help the local men to get into the running and it has been announced that a high school team will likely be organized. Track athletics have never been considered important at the local school but some of the members of the faculty are said to favor them as affording opportunity for more students to participate and thus providing for the physical development of all the students rather than for the favored few who make good in baseball or football.
