# Prep Track Records Safe After All

City League track coaches heaved a sigh of relief Monday and realized that their athletes are as good as they first believed.

A crew of City engineers, accompanied by David L. Holmes, coach at Wayne University, found that the new \$25,000 Sawyer Field track more than measures up to requirements.

Instead of being eight yards short, as was first feared, the layout at Redford High School actually is five inches too long.
