

The Parkettes have been in many meets this year. They've been doing a good job for Lincoln Park. First we'll look at the cross country meets.

They were the winners of seven consecutive cross-country meets in Mich. Next, they were the state champions in the womens division, as well as the girls division.

They also were the winners of the Canadian National Championships for girls, and second in the womens division.

They won the Indiana State University Invitational, and the USA Junior National Championships for women

Going to Indoor Track, they won 2 out of 3 Michigan meets, 3rd place in the State Championships for women. They came in second in the USA Regional Championships for women.

In Outdoor Track, which has just started, but so far, they were the winners of four Michigan meets, and two Ohio Meets. Three American Records were set, six girls are qualifying for the Olympic Trials.

#### Summer Plans

The Parkettes have many meets to look forward to this summer. They will be in the Regional Championship, the Central State Championships, National Pentathlon, and the National Junior Olympics. They are also going to the National Track and Field Meet in Colorado, the Olympic Trials in California, Regional Jr. Olympics in Ohio, and the girls National Championships in San Jose, California.

Mr. Beyst said he needs a lot more girls. He doesn't care if you're fast or slow - just as long as you like to run.
