U. S. Women Show Speed, Little Brawn

(Special to The News)

WALNUT, Calif.—Ann Arbor's Francie Kraker is moving still closer to her goal of running for the U. S. team in October's Olympic Games in Mexico City.

Miss Kraker was named today to a group of U. S. women who will attend a high-altitude camp at Los Alamos, N. M., to see if they can improve and meet qualification requirements.

Although she finished fourth in the 800-meter Olympic Trials here last weekend, Miss Kraker has shown an adaptability to high-altitude running which is strongly in her favor.

She led the field for the first 600 meters but then fell back as Doris Brown and Madeline Manning hit the tape in a winning time of 2:05.2. Although their times were identical, Miss Manning was declared the winner. Jarvis Scott was third and Miss Kraker fourth in 2:07.2.

"I think Francie was just a little too anxious," said Coach Ken Simmons. "She wanted to make the team so much that she just couldn't hold herself in. She thought she could hold the pace."

The runners in the 800 meters demonstrated again that Uncle Sam has plenty of speed for the coming Olympics but apparently not enough brawn.

Two days of Olympic Trials at Mt. San Antonio College showed that the chances for gold medals in women's track and field rest with the speedsters.

Wyomia Tyus, a 23-year-old defending 100-meter champion, and 17-year-old Margaret Johnson Bailes of Eugene, Ore., provide a one-two punch in the sprints with Barbara Ferrell of Los Angeles to back them up with her 5-foot-2 and 103 pounds.

Bailes won the 200 trials but was upset by Tyus in the 100 on Sunday night. At the AAU Championship the week before, the outcomes had been just the opposite.

"I had a fine start," said Wyomia.

"I had a poor start," said Margaret.

And that summed up the race which saw each timed to 11.3 seconds, although the gal from Tennessee State finished a full yard in front.

Miss Scott, a 21-year-old collegian from Los Angeles, won the 400 in 53.5 seconds, a clear victory over Lois Drinkwater a 17-year-old from Phoenix, Ariz., 54.0, and Esther Stroy of Washington, D. C., youngest gal on the track team at 15.

All the winning runners met Olympic qualifying standards but not so in the weight event.

Just one qualifies in the javelin, one in the discus, and no shotputters has the required 52 feet.

Maren Seidler, a 17-year-old from Plainfield, N. J., makes the trip to Mexico City since she won the trials with a shot put of 50-1 $\frac{3}{4}$.

Each nation is allowed one competitor in each event whether or not she has met the qualification standards.

Olga Fikotova Connolly, who won the discus gold medal for her native Czechoslovakia in 1956, and met her husband to be during those Olympics in Melbourne, threw 175 feet, second best of her career.

So at 36 and the mother of four, Mrs. Connolly competes in her fourth Olympics.

She hopes she can improve to 190 and also hopes her husband, Harold Connolly, who won the hammer throw in 1956 in the hammer throw, will qualify for the men's team.

Statuesque Olga is the only U. S. woman to meet the qualifying standards of 170-7 $\frac{1}{4}$ in her event.

Carol Moseke of the Nebraska Track Club, who placed second to Mrs. Connolly with a throw of 166-5, is another one of the girls selected to attend the high altitude camp at Los Alamos, N. M.

Barbara Friedrich, 19, of Spring Lake Heights, N. J., threw the javelin 177-5 — bettering the olympic standard of 173-10 $\frac{1}{2}$. Sherry Calvert of the Southern California Missiles

took second at 160-7 with the veteran RaNae Bair of San Diego third at 158.
