I thought the meet went quite well, maybe our best ever. The volunteer officials did a fine job--Marty Crane, Kermit Ambrose, Doug Tompkins, Gary Jozwiak, Bill Beach, Don Marsh, Gordie Spencer, Bob Fulcher to name just a few. I think the coaches & kids are finally getting the message some about these meets. There seem to be fewer of the low-quality athletes (but still an awful lot) espec. in the distances--a couple I saw could hardly run at all). Also fewer kids in the way, asking dumb questions and gasping at their teammates from next to the judges stand etc. I was worried about this one being too huge, but my fears were not realized. Some coaches still doubled their kids not too intelligently, some entered more than the allotted number, some tried to guess the gun. Someone ripped off a case of pep in my station wagon intended for the officials, I have a hunch it might NOT have been any of the HS athletes but I'm not sure. In any case none of the cans ended up in our trash barrels or in the balcony. Don't get discouraged if your men don't immediately run faster outdoors than they do indoors. Conditions are pretty perfect indoors except for more turns & the wind & rain aren't in the FH. We have the same problem. Kids expect to run faster outdoors & then get discouraged when they don't. GOOD LUCK THE REST OF THE SEASON. Don't forget to tell us about your good kids. We have a real good team, but have many real fine juniors and seniors who need to be replaced. We especially need sprinters, hurdlers, & field event men, but can use people in all events.
