Bob

Another Elks Relays is history and the beginning of another track season. Hopefully we all found out something about our teams and also found one or two people who will help the rest of the season. I know we did,

The lowering of the height of the PV seemed to work-out as four teams had 3 people clear opening height. The State is firmly behind the PV and some of the Leagues who did not allow the PV are swinging back (Catholic League). The idea about the 1600 Relay also worked out and a head-to-head meeting between Catholic Central and John Glenn to decide second place. In the past only "Lunk" would have them in the same heat. Any other new ideas you have pass them on - it's your Relays.

It was different "HOSTING" the relays again. The track we feel runs fast and is kind to the legs. We'll get better on the actual hosting - maybe even as good as - Gary at Plymouth, Bob at Franklin, Barry, Richard at John Glenn - you've all made the relays possible and a goal for us to try to achieve - Thanks - Thanks again -

Hope you & your team enjoyed the relays and will continue in the future -

Best in 1989 -

Hope all of you see each other in the State -
Good Luck,

Bob
