We apologize for an error. There was one runner that did not register on the timer and we are not sure which runner that was! We are certain that the first 41 times match up with the first 41 runners and we know at least the last 3 runners times are one place off. If anyone can call me and let me know if they had a significantly different time for their runner than what the tape shows please let me know. This can help us locate which runner was not timed. A copy of the tape is on this page.

The finish cards your runners received correspond to the tape numbers. We had to guess on some runners times since the boys and girls tags went on separate scoring posters. We apologize for an error we made. But if you were timing and noted the finish card, check the tape and your record will be accurate. The tape is copied on the next page.
