Vind gauge directions

Placement: put in duct tape pocket in tripod, place at about waist height, within 6 feet of 50m mark on track straightaway. It should be readable if your back is to the starting line and you are facing the finish line (in other words, aim it at the finish, so that it can measure the wind along the straightaway.

Mode: push mode button until it displays M/S and MAX

Operation: At 100m/110m start, start it with the gun, and record the number after the runners have passed you by. In 200, start it when they hit the straightaway. To clear, hit "on" twice.

Record all heats, semis and finals. (If runners are going into a headwind, write it as a negative number.

BOYS/GIRLS	EVENT	Heat,semi, final	reading
Boys	100	Semi 1	3.2
